DR. FRASK'S MAGNETIC CINTMENT. A MR. WINTERS had lost nearly all of his hair and had been hald for many years; by the use of three beddles of the Magnetic Ointment, had his hair entirely recould with. His age is about 50 years.

A son of Mr. Warren, of this town, 14 years of age, had been afflicted with the Asthma from his cradle. He had the benefit of the best medical advice that a loving and wealthy father could procure, without avail. It was one of the most aggravated cases I ever saw; he was consciuted almost to a skeleton. By the use of a few bottles of the Oint-ment he was thoroughly cured, and for seven months past has enjoyed robust health. This was an extreme case of inflammation of the onless

Thave treated two cases of Chronic Sove Ligas with the Ontment, both of the patients so nearly blind, as to need an attendant to lead them from place to place. One of them had been afflicted 1s years, the other about 9 years. They had tried the best physicians in the State, without benefit; and one of them had been under the State, without benefit; and one of them had been under the treatment of the celebrated Dr. Muzzy, of Cincinnati, for eighteen accords, and had expended handrasts of dollars in vain efforts to effect a cure. They are now by use of the Magnetic Outment, nearly or quite cured; and are able to read and attend to any ordinary business. I have used the read and attend to any ordinary bostosss. I have used the Omtreent in a number of cases of Piles, and in no case has it faulal of giving immediate relief and generally a permanent cure. And last but not least, I have within the last year cured four cases of CANCER by the use of the Magnetic From a thorough trial of the Ointment in nearly every

TENNESSEE STATE MEDICAL SOCIETY in their resolution of May 5th. "That they shall arge upon the Legislature the passage of a Law, requiring the receive for all these medicines to be filed," by which the members of the said society may be enabled to have all the use and Nashville, to petition the Legislature, not to permit any families in the city to make their own bread, without making known the mass as operated, as such accret proceedings are injurious to the well-doing of Bakera, and ought not to be permitted. The grounds are precisely the some.

If Doctore were always intallible, there might be some justice in legislative acts to compel the public to apply to them universally, but unfortunately we have before us the Crescent City paper of the 2d of September, from which we

learn that | 20 OUT OF EVERY 100 CASES OF YELLOW FEVER treated scientifically by the faculty have died, and
DS cross of every 160
treated by old momen, the non-medical members of the Howard Association, and by more excessive humbugs the Hosepathic Doctors, have been cured.
Such statements as the above are injurious to the profession, for people are easily led estray, and may be induced to attach less value to Latin prescriptions and expensive Hiroglyphics, and occasionally trust to the dogmas of conmon sense, laid down in plain English, to the Græfenberg Medicines, which are warranted to do no harm, and for which no money is exacted if they do not prove beneficial. It is well known that the Dysentery Syrup and the Childrens' Panacea of the Gradenberg Company, have, in two years past saved 20,000 lives, from Flux and Dysentery when all other retuedies had failed.

But it seems that the objection to these remedies is that "it is an attempt to send forth medicines without the presence of the Doctor"—who is thus deprived of the proper degree of aid and confort that he should receive for furnishing the proscription, "Hime illan brokeryman." The Doctor and the medicine should go together, the Medical Society have so willed it, let no quack put them assunder.

R. R. R. NO PAIN KILLER.

PO KHIL PAIN we mind parelyse the nerves, or in other words produce a poley of the part to which the pain or disease which, being transmitted along the nerves to the brain, gives an uneasy perception to the mind. Remedies recommended to hint Pain, or Pain Killians, Removines recommended to him Pans, or Pans Kintres, are either producers of Parsiyais, or they are not what they are recommonded for. If the entire of man is to undergo a suspension of vitabity, or if the unfortunate arm or log, or if the part of the body suffering the tectures of pain, to to suffer an attack of parsiyas, we think the the remody must be worse than the disease. And, if Pain is to be Ailled, then the nerves that transmitted this semuntion, and the senses that perceive its unpleasantness, must be killed also. If, on the other hand, it is not a "poin killer," it is a mismonic, and not what its advertisement claims for it.
